About the Release

These Release Notes contain information about new features, enhancements, and reported issues resolved in this release of the Registration and Title System (RTS).

Release Notes are located under the **Release Notes & Support** tab on the TAC Hub (www.txdmv.gov/tax-assessor-collectors).

RTS POS Overview

The refactored RTS POS is a web-based application designed to process vehicle registrations, titles, and temporary permits for Texas motorists. RTS POS provides functions for cash accounting, funds allocations, and a full audit trail along with inventory control for license plates, windshield/plate stickers, and temporary permits Summary of Enhancements.

Getting Help

When logged in to the RTS POS, you can display reference information about using the RTS POS and get specific application-level help.

- To get application-level help, click **Help** on the page you are viewing
- To see the entire user assistance web site, select **Help > User Guide** on the main page menu bar.

Additional Resources

For additional resources for the RTS POS, see the TAC hub (www.txdmv.gov/tax-assessor-collectors). Open the **Resources** tab, select **Publications & Manuals | TAC | RTS Support**.

Summary of Enhancements

RRTS-32801	ITSR 299031: Discontinue SLPs - Univ. of Missouri and Georgia Tech
RRTS-32776	ITSR 298413: County Renewals Report P446918 added TRENEW and update totals
RRTS-32479	ITSR 296267: Texas Realtor Non-Vendor SLP
RRTS-32324	ITSR 294859: Austin FC - Vendor SLP
RRTS-28505	ITSR 258776: Update NMVTIS Brand Mapping
RRTS-28501	ITSR 258776: County Tax Office ability to process Title Rejection Requests (RTS-POS)
RRTS-22323	ITSR 227455 (part 1) Prevent Issuance of Duplicate Plate (webDEALER, webSUB, RTS)
RRTS-16033	ITSR 170639: Only apply "JUNKED ON" remark for Junk Codes 3,9,4, 5, or 7
RRTS-13829	ITSR 151249: Automatically mark VIN errors as Rejected and provide report to Counties

Enhancements in RTS POS 23.3

RRTS-32776 **ITSR 298413: County Renewals Report P446918 added TRENEW and update totals**

Added a new column for total TRENEW counts for the month.

Before:

RRTS-22323

ITSR 227455 (part 1): Prevent Issuance of Duplicate Plate

Problem Description/Requirement:

- 1) Do not allow **receipt of inventory** or **issuance of inventory** when the inventory, or a subset of that inventory:
 - Exists in another location (RTS_INV_ALLOCATION)
 - Has been issued by another office (RTS_TR_INV_DETAIL)

DISCONTINUED: Current 23.2 RTS logic notifies the user if the inventory has been previously used and presents the question,

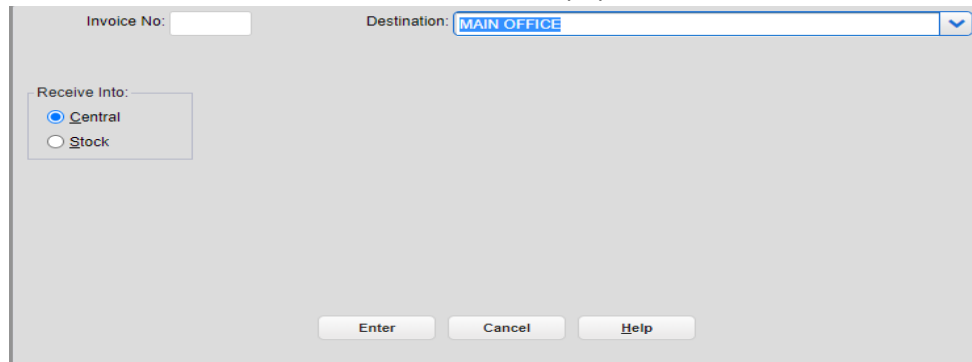

“... has already been issued, do you want to continue and issue it?”

This will no longer occur.

- 2) Do not allow use of item as **Customer Supplied** when the inventory:
 - Exists in any location’s inventory (RTS_INV_ALLOCATION)

DISCONTINUED: The “Validation Panel” has been removed from “Inventory – Receive Invoice INV004”

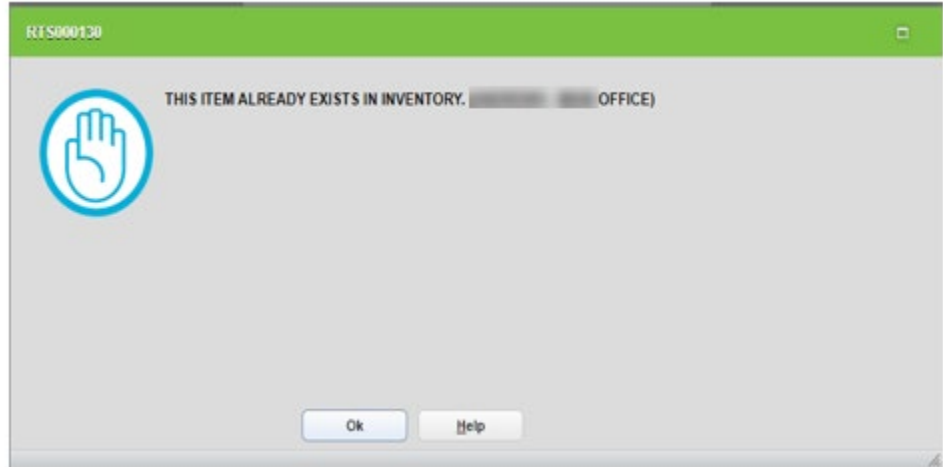

The Destination continues to be populated with Office Substations.

The screenshot shows a software interface for receiving an invoice. At the top left, there is a text box labeled 'Invoice No:'. To its right is a dropdown menu labeled 'Destination:' with 'MAIN OFFICE' selected. Below these is a section titled 'Receive Into:' containing two radio buttons: 'Central' (which is selected) and 'Stock'. At the bottom of the form are three buttons: 'Enter', 'Cancel', and 'Help'.

- 3) An error is presented on Inventory Receive if inventory on Regular Invoice already exists in any office or substation.

Example error if inventory or plate number already exists in the system.

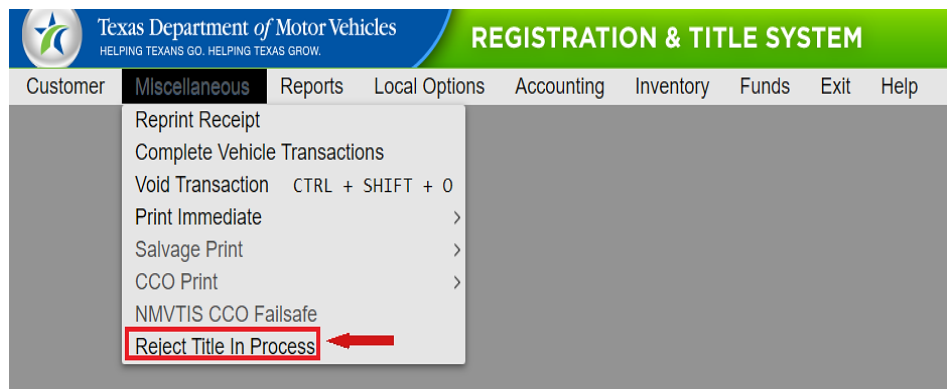

RRTS-28501

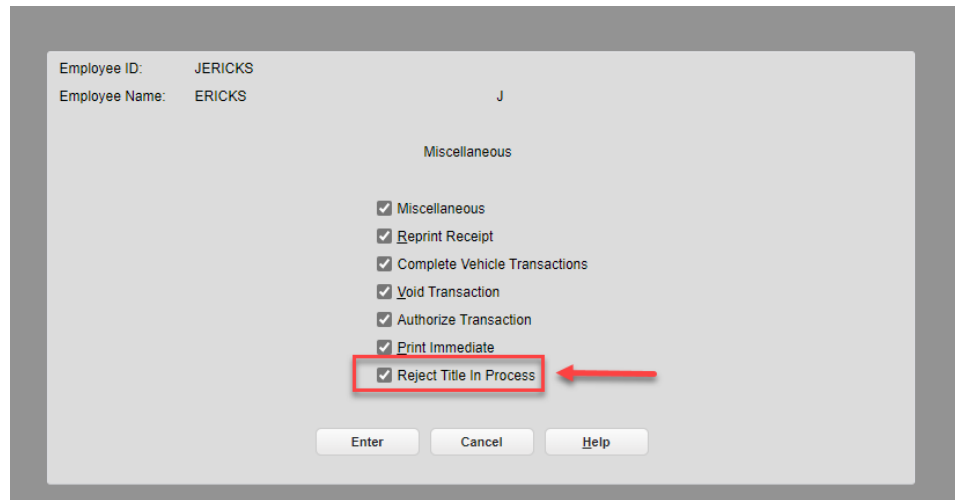

Ability for County Tax Offices to Process Title Rejection Requests

County tax offices have the ability to submit their own title application rejection requests through RTS POS. The new “Reject Title In Process” menu item is added under the Miscellaneous tab. This event will be enabled only when the county user has the Reject Title in Process permission.

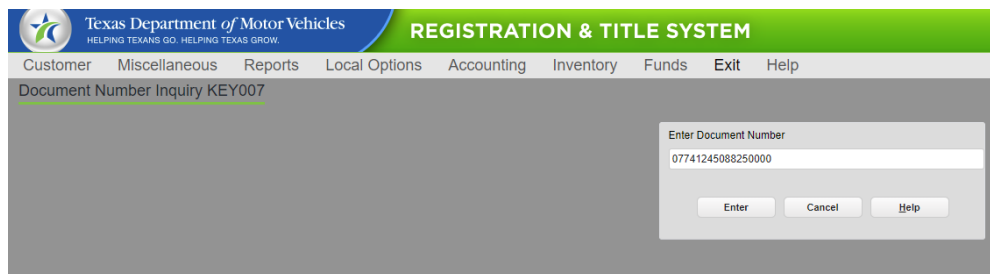

Screen changes and error messages for POSREJ/County Title Rejection:

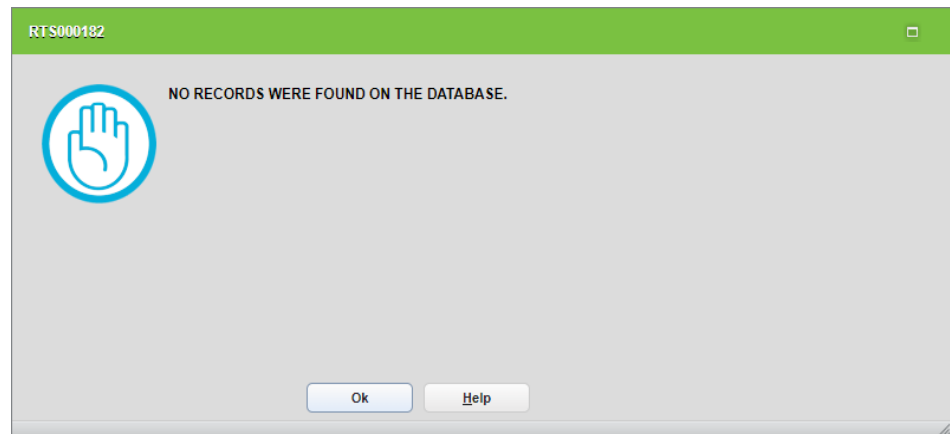

New security access indicator “Reject Title In Process” is added on “Security Access Rights Miscellaneous SEC011” screen for access to the new event. The Employee Security Reports will reflect the new permission.

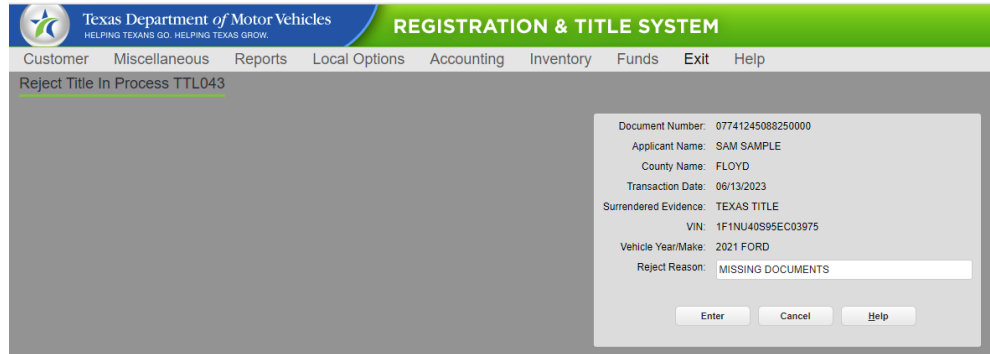

To submit a rejection request, “Reject Title In Process” will take the user to the Document Number Inquiry Key007 screen where the user provides the complete Document Number.

When the given document number is not found the following message will be provided:

If the document number is found, the Reject Title In Process TTL043 screen will display. The user should verify the record matches the record to be rejected. A reject reason must be entered. The reason is limited to 40 alphanumeric characters.

Reject Title In Process TTL043

Document Number: 07741245088250000
 Applicant Name: SAM SAMPLE
 County Name: FLOYD
 Transaction Date: 06/13/2023
 Surrendered Evidence: TEXAS TITLE
 VIN: 1F1NU40S95EC03975
 Vehicle Year/Make: 2021 FORD
 Reject Reason: MISSING DOCUMENTS

Enter Cancel Help

If the user continues without providing the Reject Reason, the following message will be provided:

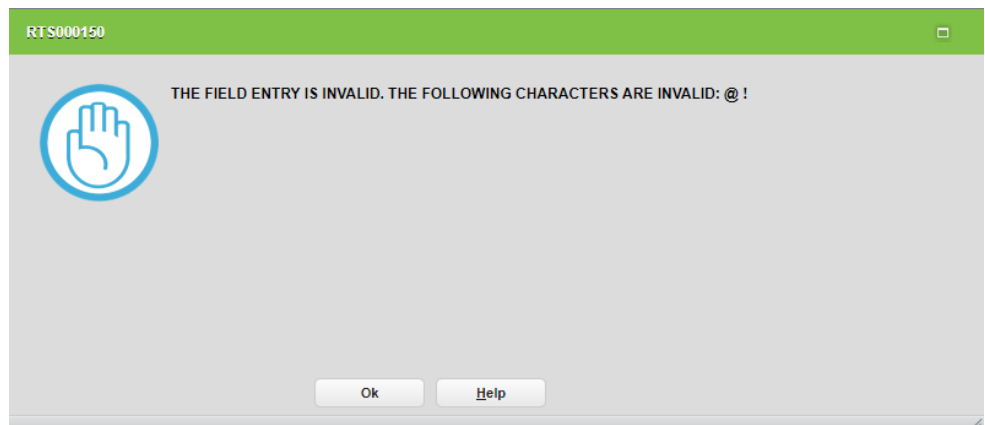

INFORMATION

REJECT REASON IS REQUIRED.

Ok

If the Reject Reason entered by the user contains invalid special characters, the following message will be provided:

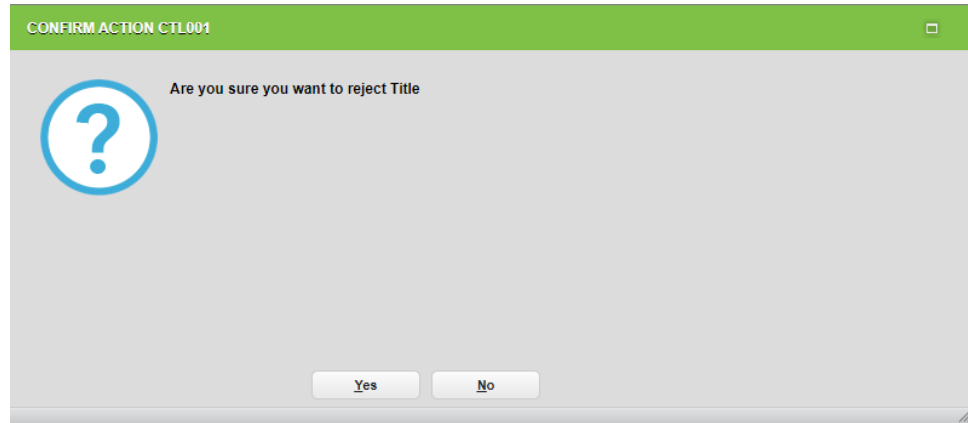

RTS000150

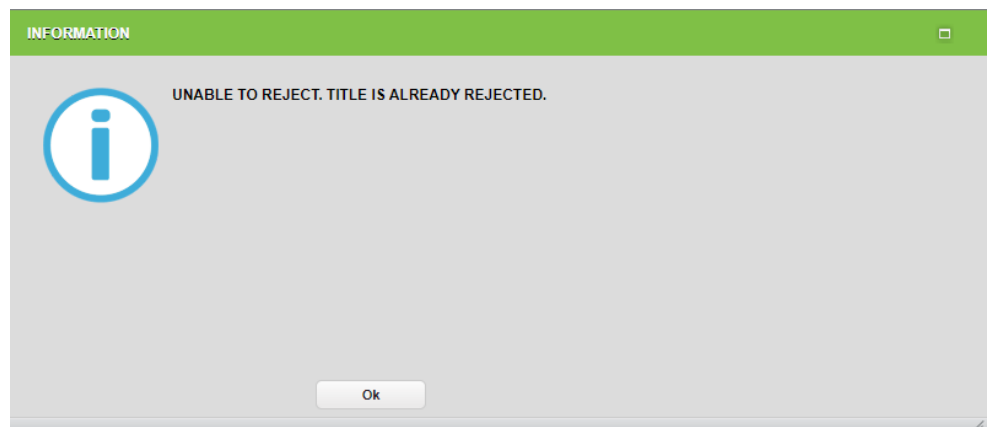

THE FIELD ENTRY IS INVALID. THE FOLLOWING CHARACTERS ARE INVALID: @ !

Ok Help

When the user inputs the Reject Reason and clicks enter, if there are no validation errors with the Reject Reason field, then the user must confirm the rejection request. By selecting yes, the rejection will be completed, and the record will be rejected the following business day.

If a user tries to reject a transaction that has already been rejected the following message will be provided:

In addition, a user cannot void a rejected transaction. If a transaction was rejected in error, once the record updates with the rejection it can be resolved by processing through the Correct Title Rejection event.

New Title Rejection Report in Cognos: Counties can access this new report under the Title folder. This report will provide the rejections that were processed by the county under the new Reject Title In Process event in RTS POS. County title rejections will reflect as a Reject Reason Code 1 on the new report.

Note: The report will also contain invalid VIN rejections. These were rejections provided on a report emailed to counties by their Regional Service Centers. Please see **RTS-13829** for further information.

Sample Title Rejection Report reflecting county requested rejections:

RRTS-21803

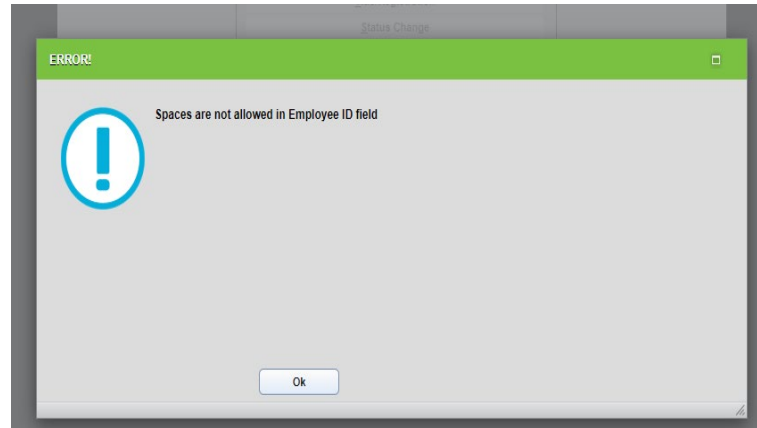

Added logic to Inventory System to prevent issues from Security Employee ID

Solution Details:

- 1) Add validation to employee id field on "Employee access right (SEC005) screen" to avoid spaces in future.
- 2) For existing IDs, need to work with the counties to update the Employee IDs to eliminate the space.

When user inputs employee id with space the following error message will be shown.

**RRTS-28505****ITSR 258776: Update NMVTIS Brand Mapping**

NMVTIS Brand 28 (Street Rod) is now ignored when received from NMVTIS and no longer generates an error.

NMVTIS Brand 16 (Salvage Retention) maps to NMVTIS Brand 32 (Owner Retained) instead of 09 (Rebuilt). This generates an error if we do not have Brand 32 or a rebuilt salvage was not processed.

NMVTIS Brand 31 (Totaled) maps to NMVTIS Brand 11 (Salvage) instead of 08 (Junk). Transactions processed as a rebuilt salvage will not generate an error.

NMVTIS Brand 50 (Salvage - Other) maps to NMVTIS Brand 11 (Salvage) instead of 08 (Junk). Transactions processed as a rebuilt salvage will not generate an error.

RRTS-13829**ITSR 151249: Automatically mark VIN errors as Rejected and provide report access to Counties**

Currently, TxDMV Regional Service Centers email counties the RTS.TTL.9462 and 9463 reports each morning.

Solution:

1) Records that have invalid VINs are automatically marked as "TITLE REJECTED" with "TITLE CONTROL SYSTEMS" and a new report was created in Cognos for counties to pull their rejected transactions.

2) Title Rejection Report is available to the county through Cognos under the Title folder.

The report includes invalid VIN related rejections, as well as rejections that counties submitted through RTS POS through the Reject Title in Process event.

The report contains a Reject Reason Code and the Rejection Reason:

Reject Reason Code	Reject Reason Description
1	Custom message that was entered by the county in the Reject Title In Process Event in RTS POS
2	VIN IS INVALID
3	VIN IS TOO SHORT
4	VIN IS TOO LONG

Example Report:

Texas Department of Motor Vehicles							Registration and Title System Report		
RTS.TTL.023				TITLE REJECTION REPORT					
Office Issuance Number	Office Name	Transaction ID	Transaction Date	Document Number	License Plate Number	VIN	Title Rejection Date	Reject Reason Code	Reject Reason Description

Appendix

Other changes for RTS in 23.3 Release include:

ID	Summary
RRTS-18451	RTS Core Online - Transaction Summary Report fails if Dataset Name is not entered
RRTS-21803	When Security Empld contains a space, inventory is not appropriately allocated
RRTS-22175	RF: 227021, 230769 - RTS POS, NICUSA.COM link gives error, wrong URL
RRTS-22323	Part 1 - ITSR Prevent Issuance of Duplicate General Issue Plate Middle Tier Validation
RRTS-22498	Child Support Removal Issue
RRTS-22766	eTITLE ELT Release is going through NMVTIS Inquiry
RRTS-27114	Regpen change the registration expiration date
RRTS-31425	TLETS spacing issue
RRTS-31466	Title only - extended registration trailer error

RRTS-31553	'Credit Card Fee has been added.' pop up screen appears twice
RRTS-31642	Renewal Notice for specialty license plate renewal, should not have P&H Fee.
RRTS-32024	Incorrect Fee Calculation for IRENEW 2 Year Registration when Regular Exempt
RRTS-32163	Two years of inspection but only one year of registration
RRTS-32182	SB-15 : Modify the P446809SEEDB job to pick up the latest GDG version of the input file
RRTS-32186	Null Pointer Exception when attempt to validate DealerGDN in POS Title
RRTS-32189	OpenText: ADDR SQLCODE - 302 Data too long for target column
RRTS-32277	Add SQLCODE -407 to the list of SQLCODES for which we print parameters
RRTS-32280	Fields w/ Invalid Values are not showing in RED upon pressing Enter
RRTS-32308	Invalid request error while searching valid buyer tag with long name in TLETS
RRTS-32324	ITSR: Austin FC - Vendor SLP
RRTS-32380	RTS Core Online transaction report option loses some reports
RRTS-32386	TLETS doesn't show up the correct Sales Price
RRTS-32479	ITSR: Texas Realtor Non-Vendor SLP
RRTS-32527	IVTRS: Exempt pop-up message:
RRTS-32543	add CLEANUPWF to RTS Batch
RRTS-32676	Asymmetric layout in MRG024 screen
RRTS-32706	REGPEN event dates are not working correctly as expected
RRTS-32712	RTS POS Middle Tier should limit Date Range when searching for In-Process Special Plates
RRTS-32718	RTS-TxT-VehicleLinkingService fix refreshIndex method
RRTS-32776	Remedy 298413: County Renewals Report RTS.TTL.9183 Needs TRENEW counts
RRTS-32801	ITSR: Discontinue Two Vendor SLPs
RRTS-32805	Special plate 17504DV has DELETE_INDI = 1 but not purged after a year
RRTS-32807	IRENEW - SQLCODE - 302 (Too Long) from IVTRS; CustPhoneNo should have no punctuation
RRTS-32811	Internet Trace number not saved on Fund_Func_Trans for TRENEW transactions
RRTS-32814	Some online renewals are getting option for two-year renewal when not eligible
RRTS-32840	EReminder and ERNO "Go Paperless" Screens Shows up NULL, when toggling between English and Spanish
RRTS-32948	BlackBookClient does not set connection timeout, only read timeout
RRTS-33204	VIN 3FA6POH78JR178379 is showing using RTS-Core online, but record does not pull up in MVDI
