

Saving Money & Time For TACs Online

webDEALER is the new online system that processes title applications and new registrations from any Internet connected computer.

What will webDEALER do for you?

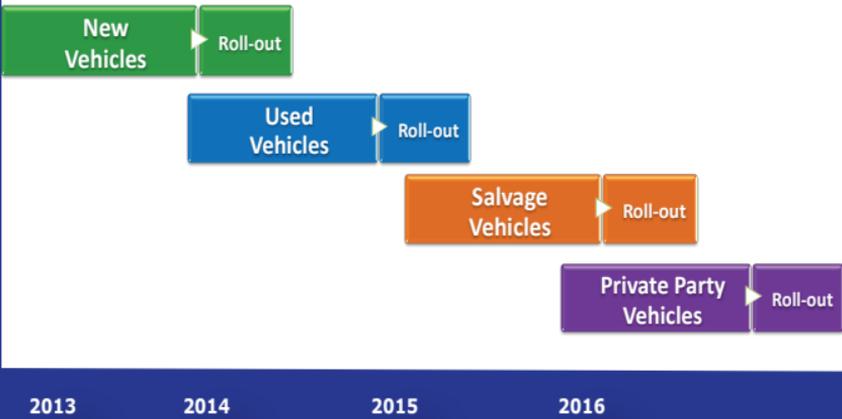

-  **Cuts the paperwork.** Eliminates the paper-based system, allowing for electronic data submission, including transfers and fees.
-  **Inventory not required.** Supports use by non-bonded dealers by removing the inventory requirement. Stickers & plates can still be handled by the county.
-  **eTitles.** It is the next step towards the electronic storage of TxDMV-issued titles. Texas is the first state in the U.S. with a completely electronic titling process.
-  **Stops the drops.** Dealers will no longer have to hand deliver title & registration transactions to your office.
-  **24/7.** Since it is internet-based, it is there and ready 24 hours a day and on weekends for dealers to process transactions when it is convenient for them.
-  **Transfers Plates.** No Problem! Most plates, even specialty plates, can be transferred by the dealer at the time of the sale.

webDEALER: Easy & Efficient

*A savings in time and money
for the County Tax Offices
and their Dealers.*

webDEALER-eTitles Phased Approach
