# Introduction to RTS Version 5.9.0 RSPS Version 1.5.0 and IVTRS Version 2.3.0

#### I. OVERVIEW

This implementation includes the new Placard Database as well as enhancements to the Registration and Title System (RTS), Remote Sticker Printing System (RSPS) and Internet Vehicle Title and Registration Service (IVTRS). In addition, you will be provided information regarding the functional and procedural changes related to the following:

- e-Pay Internet Trace Number
- IVTRS TexasSure Verification
- New Credit Card Types
- Placard Database
- Optional Plate Replacement Age
- New Specialty Plate
- Local Options/Security
- Several Fixes and Activity Changes

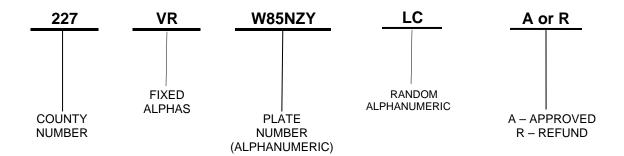

#### II. NEW e-PAY INTERNET TRACE NUMBER

e-Pay trace numbers have been reduced from 20 characters to 15 characters. The trace number consists of the following:

- County Number (3 numbers)
- VR (2 fixed alphas)
- Plate Number (up to 7 alphanumeric characters)
- Random Characters (2 alphanumeric)
- A (Approved) or R (Refund) (1 alpha)

#### TRACE NUMBER

## 227VRW85NZYLCA

#### III. IVTRS – TEXASSURE VERIFICATION

The Internet Vehicle Title and Registration Services (IVTRS) are now programmed to allow TexasSure to electronically verify liability insurance when processing a registration renewal transaction online. This eliminates the need for the vehicle registrant to enter their insurance information online unless it can not be verified through TexasSure.

- When a vehicle is renewed online and liability insurance is verified, a message "Insurance Verified" will display for the online user.
- The insurance fields will be disabled in RTS if liability insurance was verified when vehicle was renewed online (same as when processing trailers currently).
- If liability insurance can not be verified, the insurance input fields are visible and must be completed by the online user.

**Note:** There is no change to Registration Class Codes that <u>do not require insurance</u> verification.

### IV. IVTRS – AMERICAN EXPRESS AND DISCOVER

In addition to Visa and MasterCard, American Express (AMEX) and Discover credit card types are now available as an option for payment of fees through IVTRS.

American Express and Discover process their own credit card payments and will send their own statements to the counties.

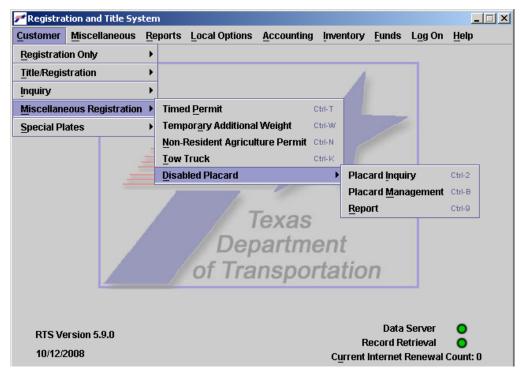

Note: Visa and MasterCard deposits occur within two business days to the county's account, whereas AMEX and Discover may take up to five business days. Holding the transactions until they appear on the deposit statement could cause some vehicles to go unregistered.

## V. PLACARD DATABASE

The new placard database is designed to assist county tax offices by providing the ability to track and manage the issuance of Permanent and Temporary Mobility and Non-Mobility placards. The database allows the counties to make an inquiry, manage the issuance of placards and run reports.

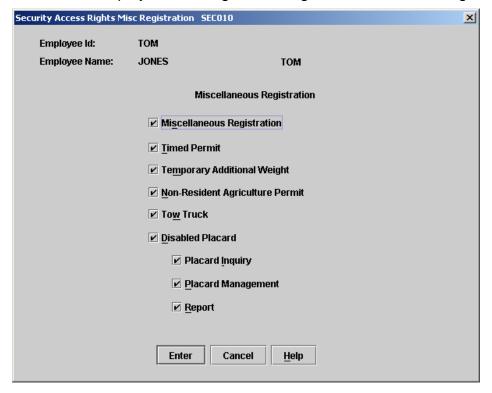

The Disabled Parking Card event has been renamed to Disabled Placard event The Disabled Placard and Security events have new submenus that display 3 new categories:

- Placard Inquiry CTRL + 2
- Placard Management CTRL + B
- Report CTRL + 9

The *Disabled Placard* event automatically defaults to Placard Management for all employees who previously had access to the Disabled Parking Card *event*. Access rights will need to be given for Placard Inquiry and Reports through Local Options.

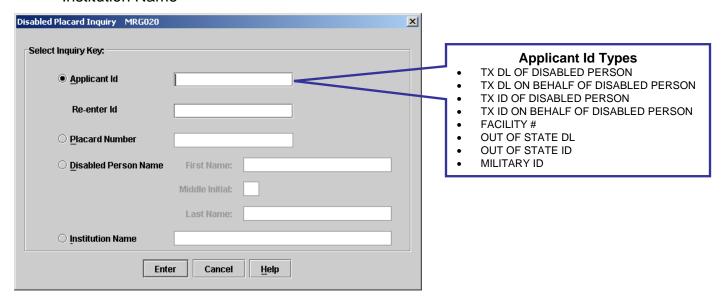

Note: Each employee must log off and log back on for the change in security to update.

#### PLACARD INQUIRY EVENT

The *Disabled Placard Inquiry* (MRG020) screen allows the user to choose one of four search options:

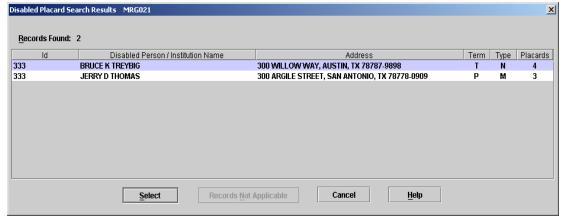

- Applicant Id (Default)
  - Must enter twice for verification
  - Exact matches only will display
- Placard Number
  - Exact matches only will display
- Disabled Person Name
  - Separate fields for First Name, Middle Initial, and Last Name
  - Search can be initiated by any field
- Institution Name

#### **Disabled Placard Search Results**

The Disabled Placard Search Results (MRG021) appears if multiple records are found.

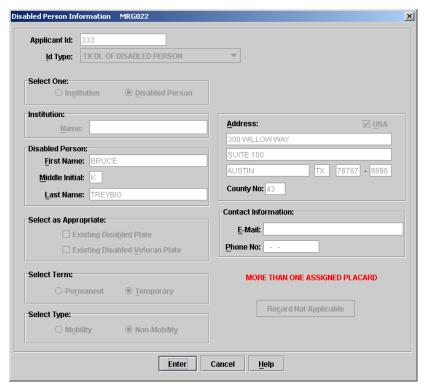

- Screen displays:
  - Applicant Id
  - Disabled Person/Institution Name
  - Address
  - Term (T=Temporary, P=Permanent)
  - Type (M=Mobility, N=Non-mobility)
  - Placards (placard count including active and inactive)
- Choose applicable record when multiple records display and "Select".

#### **Disabled Person Information**

The Disabled Person Information (MRG022) screen displays the current applicant's information.

- All edit capabilities in the *Placard Inquiry* event are disabled. No changes can be made to the record in this event.
- The facility number is only available for an institution.
- "Record Not Applicable" is only available if user selects Applicant Id in *Placard Management* event.
- If more than one placard is issued the remark "MORE THAN ONE ASSIGNED PLACARD" displays.
- The following message will display if a user is accessing the same customer record statewide.
  - A transaction involving this applicant is currently in process. Update will not be available.

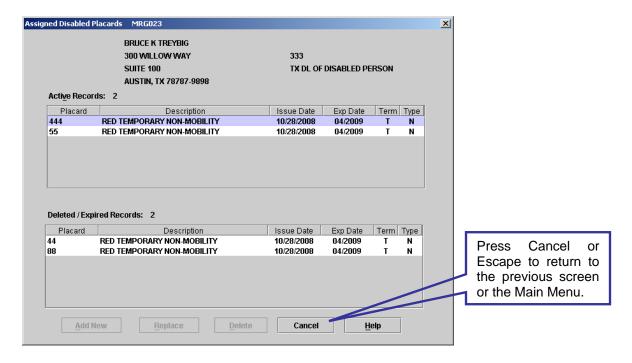

The *Placard Management* section on page 8 will identify all fields when enabled.

#### Adding a New Disabled Placard

The Assigned Disabled Placards (MRG023) screen displays the applicant's active and deleted/expired records information.

- Screen displays:
  - Placard
  - Description
  - Issue Date
  - Expiration Date
  - Term (T=Temporary, P=Permanent)
  - Type (M=Mobility, N=Non-mobility)

Note: The *Placard Inquiry* event does not allow changes to the *Assigned Disabled Placards* (MRG023) screen.

#### PLACARD MANAGEMENT

• In the *Placard Management* event the *Disabled Placard Inquiry* (MRG020) screen allows the county to query the database for an existing record prior to issuance of a new disabled placard. The user is able to select "Replace", "Add New", "Delete" or "Cancel".

Note: Although the "Help" button appears to be enabled on the screen, this feature is not available at this time.

## Adding a New Placard

- Enter Applicant Id twice for verification on Disabled Placard Inquiry (MRG020) screen.
- Select one of the Id Types on The Disabled Person Information (MRG022) screen:
  - ° Id Type
    - TX DL OF DISABLED PERSON
    - TX DL ON BEHALF OF DISABLED PERSON
    - TX ID OF DISABLED PERSON
    - TX ID ON BEHALF OF DISABLED PERSON
    - FACILITY #
    - OUT OF STATE DL
    - OUT OF STATE ID
    - MILITARY ID
  - First Name, Middle Initial, Last Name (If Disabled Person name is entered Institution field is grayed out).
  - Institution Name (If Institution name is entered Disabled Person name field is grayed out).
  - Address (USA checkbox is automatically checked)
  - County No.(automatically populates)
  - E-Mail (Optional field)
  - Phone No (Optional field)

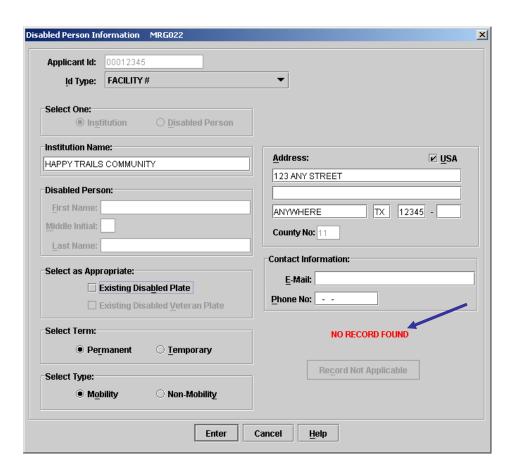

- Select as Appropriate (when applicable):
  - Existing Disabled Person Plate
  - Existing Disabled Veteran Plate (The field is not available if Facility Id type is selected.)

Note: The selection of either or both reduces the number of placards available to a new applicant.

- Select Term:
  - Permanent Disability
  - Temporary Disability
- ° Select Type:
  - Mobility Impaired
  - Non-Mobility Impaired

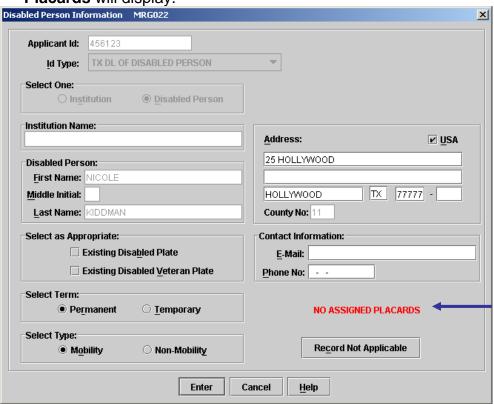

#### No Record Found

° "No Record Found" displays when the applicant's information is not found in the database.

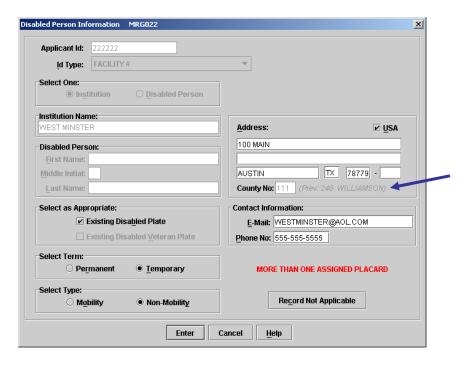

## **No Assigned Placards**

 If the applicant's information is found but not linked to a placard No Assigned Placards will display.

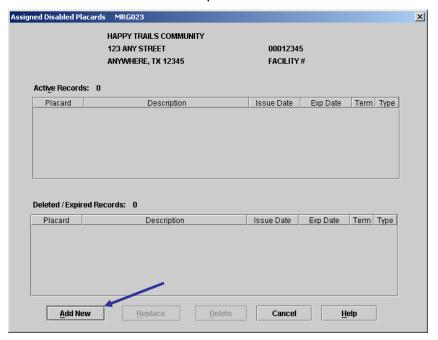

When a placard is updated in a different county, the Disabled Person Information (MRG022) screen will display that county number and name.

The Confirm Action (CTL001) screen displays and allows the user to continue to the Assigned Disabled Placards (MRG023) screen. Applicant information will reside in the database even if the user doesn't issue a placard after if they confirm the action.

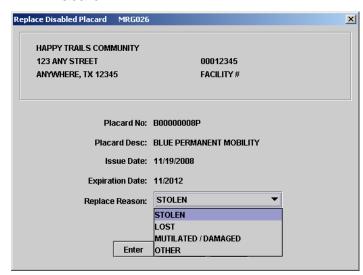

The Assigned Disabled Placards (MRG023) screen displays allowing the user to verify the applicant's information before clicking Add New. This screen will also display all placards issued to a disabled person.

- "Add New" is grayed out if two current placards exist for a disabled person and reside in the database. "Add New" is always available for Institutions, regardless of the number of placards issued.
- "Delete" is grayed out if no record(s) exists.
- "Cancel" returns to previous screen
- The placard must be voided rather than deleted or replaced if there is still time to void the transaction. If the user selects delete or replace, an error message displays indicating a transaction can be voided.

## Replacing a Disabled Placard

- When selecting "Replace" on the Assigned Disabled Placards (MRG023) screen and enter, the Replace Disabled Placard (MRG026) screen displays the following placard information.
  - Disabled Person/Institution Name, Address and Applicant Id Type
  - ° Placard No
  - Placard Description
  - Issue Date (month, day and year)
  - Expiration Date (month and year)
  - Replace Reason
- Replace Reason Drop Down Menu
  - ° Stolen
  - ° Lost
  - Mutilated/Damaged
  - ° Other
- Replacement placards retain their original expiration date.
- Temporary Placards must be replaced when stolen, lost or damaged and will retain their original expiration date.
- Charge Fee checkbox is disabled when adding or replacing a Permanent Placard.

Inventory – Registration Items (INV007) screen displays the disabled placard inventory pattern.

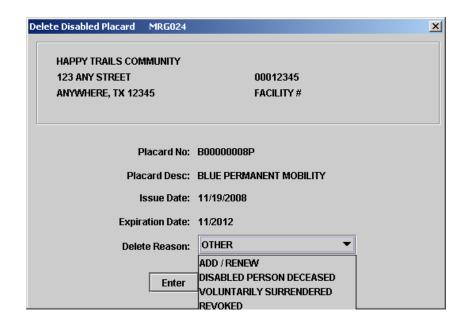

Press Enter

 Confirm Action (CTL001) screen displays, inventory issues and receipt prints.

## **Deleting a Disabled Placard**

- After selecting "Delete" on the Assigned Disabled Placards (MRG023) screen the Delete Disabled Placard (MRG024) screen displays with the following placard information.
  - Disabled Person/Institution Name, Address and Applicant Id Type
  - Placard No
  - Placard Description
  - Issue Date (month, day and year)
  - Expiration Date (month and year)
  - Delete Reason
- Delete Reason Drop Down Box
  - ° Add/Renew
  - Disabled Person Deceased
  - Voluntarily Surrendered
  - ° Revoked
  - ° Other

### Press Enter

Confirm Action (CTL001) screen displays.

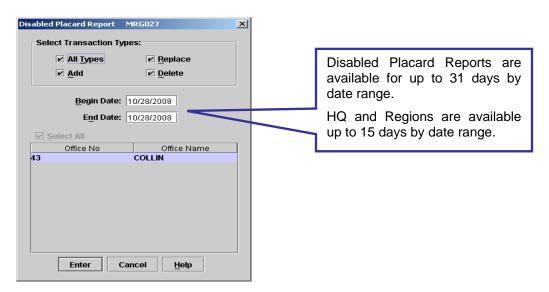

## **Voiding a Placard**

The county has the ability to void a placard transaction in RTS within the 48 hour window. Regions have a 24 hour void window.

## **Disabled Placard Reports**

When selecting Reports on the submenu of the *Disabled Placards* event, the *Disabled Placard Report* (MRG027) screen appears. The report can be generated by selecting one or more of the following transaction types and date range:

- All types
- Add
- Replace
- Delete
- Begin Date
- End Date

After selecting the transaction type and entering a date range, the *Disabled Placard Report* will be available to view and print with the following information:

- TRANSCD transaction code
- ACTN action
- PLACARD placard number
- EXP DATE expiration date
- PLACARD DESCRIPTION
- DISABLED PERSON/INSTITUTION
- ADDRESS
- EMPLOYEE
- TRANSACTION ID

RUNDATE RUNTIME								PAGE 1

## **New Message on Disabled Placard Receipt**

A new message "PLEASE RETAIN THIS RECEIPT FOR YOUR RECORDS" will display on all placard receipts. The receipt will also display the following:

- The "DISABLED PERSON NAME AND ADDRESS" "INSTITUTION NAME AND ADDRESS" for each applicant type.
- The replaced placard will show "(REPLACED)" beside the placard number. Additionally, when placard is replaced, both the added and the replaced placard numbers are shown.
- The "Delete Reason" and "Replace Reason" will also be printed on the receipt.

Note: The deleted or replace placard numbers will be shown on the Transaction Reconciliation report with an "\*" by the number.

#### VI. OPTIONAL PLATE REPLACEMENT & PLATE TO OWNER

Due to the increased manufacturing demand license plates, the 4, 5 and 6 year optional license plate replacement is no longer offered.

To avoid the issuance of new plates prior to mandatory replacement under the needs program, the New Plates Desired checkbox is no longer enabled when eligible for plate to owner in the renewal event.

## OPTIONAL PLATE REPLACEMENT AGE

The mandatory replacement age applies to all general issue plates, specialty plates, charity plates and license plates issued by VTR and the private vendor including personalized.

- If the plate age is 1 to 6 years old the "New Plates Desired" checkbox will be disabled.
- If the plate age is 7 years or older, the plate can be replaced at no charge under the "Needs Program".

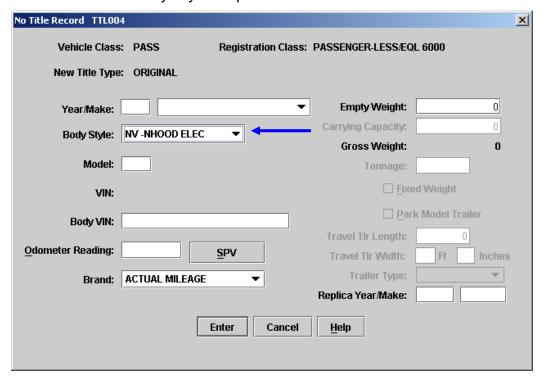

## **PLATE TO OWNER**

The "New Plates Desired" checkbox will no longer be enabled if Plate to Owner eligible unless the plate is eligible for replacement based on the Needs Program.

- If eligible and the "Plate Transfer Fee" is selected, "New Plates Desired" is automatically selected and disabled.
- If not eligible a "no fee" replacement should be done through the Replacement event
- At seven years, the customer will be notified to replace their plates by receipt of the vehicle registration renewal notice with the remark "New Plates Required".
- In the event the plates are lost, stolen or damaged, replacement plates are issued through the *Replacement* event.

## VII. NEW BODY STYLE

A new body style **NV** – **NEIGHBORHOOD ELECTRIC VEHICLE (NHOOD ELEC)** has been added to the Body Style dropdown menu in the *Title* event.

## VIII. NEW ANTIQUE PLATE INVENTORY PATTERN

A new 2013 Antique Plate Pattern has been added and is available for issuance.

ITEM CODE	DESCRIPTION	2013 ANTIQUE PLATE	
AP	ANTIQUE	1AA1 – 9ZZ9	

### IX. NEW SPECIALTY PLATE TYPES

New and existing specialty plate types are now available for issuance for applicable vehicle types at the county tax office.

- US Air Force Academy
- US Air Force Academy MC
- US Naval Academy
- US Naval Academy MC
- US Military Academy West Point Motorcycle Plates MC
- Insure Texas Kids
- MADD Mothers Against Drunk Driving
- Texas Realtors MC

### X. FPO/APO MILITARY STATE DESIGNATION

When entering a standard military state designation in RTS the error message "Invalid State - Reenter" displays. RTS now accommodates the standard overseas military state designations of "AE", "AP", and "AA" in the state field.

- AE (armed forces in Europe, the Middle East, Africa, and Canada)
- AP (armed forces in the Pacific)
- AA (armed forces in the Americas, excluding Canada.)

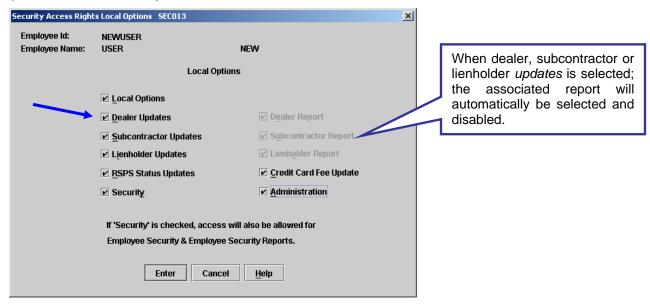

**FYI:** Overseas military city designations consist of:

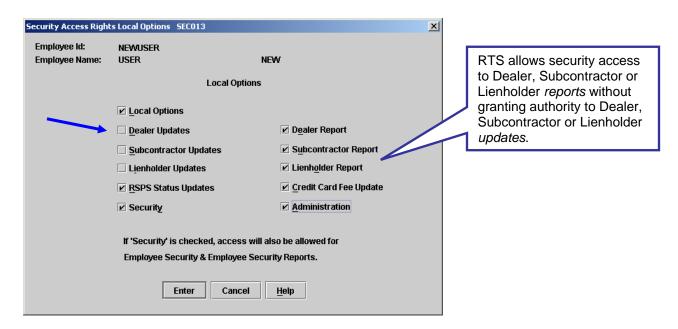

- APO Army Post Office is associated with Army or Air Force installations.
- FPO Fleet Post Office is associated with Navy installations and ships.

#### XI. LOCAL OPTIONS / EMPLOYEE SECURITY

The Security Access Rights Local Options (SEC013) screen has been updated to allow separate access to dealer, subcontractor or lienholder *reports* without granting authority to dealer, subcontractor or lienholder *updates*.

Note: If the dealer, subcontractor or lienholder *updates* is selected; the associated report will automatically be selected and disabled.

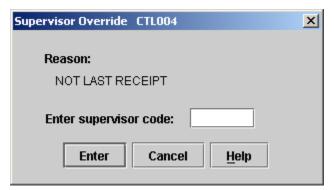

#### XII. SUPERVISOR OVERRIDE CODE

## Miscellaneous/Reprint Receipt

RTS now displays one of the applicable reasons when prompted for the *Supervisor Override Code* (CTL004) screen when reprinting a receipt.

- DEALER TITLE RECEIPT / REPORT
- SUBCONTRACTOR RENEWAL RECEIPT
- SALVAGE TYPE RECEIPT
- NOT LAST RECEIPT

#### Supervisor Override Code/Soft Stops

RTS will now display the "OUT OF COUNTY" reason with one or more applicable soft stops reasons on the *Supervisor Override Screen* (CTL004).

- OUT OF COUNTY
- REFUND PENDING
- REGISTRATION INVALID
- TITLE APPLICATION AWAITING RELEASE
- TITLE HELD AWAITING DPS OK

## XIII. RSPS-NEW SPECIALTY PLATE TYPES

New and existing specialty plate types are now available for issuance for applicable vehicle types through RSPS. New specialty plates have been added to the RSPS table.

- US Air Force Academy
- US Air Force Academy MC
- US Naval Academy
- US Naval Academy MC
- US Military Academy West Point Motorcycle Plates MC
- Insure Texas Kids
- State of the Arts Private Bus
- MADD Mothers Against Drunk Driving
- Texas Realtors MC

DPTKP	DISABLED TRUCK PLT	Truck - Less/Eql 1 Ton Truck - More Than 1 Ton				

#### XIV. RSPS – NEW MOBILITY FEE

RSPS now includes programming to automatically collect the county mobility fee effective January 1, 2009. A new fees category for county mobility fees has been created and will appear on the Title and Registration Receipts, Batch, Downloaded and Funds Reports.

**Note:** Currently, only Cameron and Hidalgo counties meet the statutory location and population criteria for collecting the county mobility fee not to exceed \$10.00.

## XV. RSPS - FLASH DRIVE UPDATE

It is necessary to update (flash) RSPS units allowing subcontractors and dealers access to the latest RTS version. Updating (flashing) of laptops may begin when the *Main Menu* on RTS workstations displays **RTS VERSION 5.9.0.** 

**Note:** Remember to export existing subcontractor transactions to a diskette before flashing the laptop so that these transactions are not lost. If the county attempts to export previously processed transactions <u>after</u> flashing a laptop the data could become corrupt and transactions would have to be entered manually.

## XVI. VERSION 5.9.0 ACTIVITY CHANGES FOR COUNTIES

PRIMARY EVENT	SECONDARY EVENT	ACTIVITY DESCRIPTION	STATUS
SELECTION	SELECTION		
CUSTOMER  Registration Only	Internet Process New	Problem: The dropdown list on the REG015 screen that displays the 2 character State abbreviation is not wide enough.	Fix complete
	Internet Process New	Problem: After renewing a Combination plate, the receipt prints with the wrong previous plate number.	Fix complete
	Internet Process New	Problem: The sticker type on the IRENEW receipt does not print on the receipt for every transaction.	Fix complete:
	Internet Process New	Problem: After processing a passenger renewal and the next record is a trailer, the cursor defaults to "View Insurance" instead of "View Address".	Fix complete:
	Renewal	Problem: RTS will display a new remark when ATV/UTV vehicles display no registration.	Fix completed: New Remark: "NO REGISTRATION – ATV/UTV will now display in the RTS remarks box".
	Exchange	Problem: When exchanging from Truck to Combination, RTS is prompting for 03/08 inventory. RTS should prompt for 03/09 combination inventory.	
	Address Change/Print Renewal	Problem: When requesting a renewal for an ATV registration, RTS should display the message "Plate Type Is Invalid".	Fix completed:
Title/Registration	Title Application	Problem: When transferring title using a canceled plate number, RTS allows the application to be processed as "No Record Found".	Fix completed: Error message "RTS729 Plate is cancelled. Processing cannot continue" will display.

PRIMARY EVENT SELECTION	SECONDARY EVENT SELECTION	ACTIVITY DESCRIPTION	STATUS
	Title Application	Problem: When exchanging to Antique plates in the title event, RTS is prompting for 2008 Antique plate instead of a 2013 Antique plate.	Fix complete RTS will prompt for the correct year when titling a vehicle with current registration.
	Correct Title Rejection	Problem: User is unable to tab off the VIN field on KEY006 screen.	Fix completed:
	Correct Title Rejection	Problem: When escaping from the Lien Display (TTL005) screen, the Owner Entry (TTL007) screen displays instead of returning to the Title Record (TTL003) screen.	Fix completed:
	Dealer Titles (DTA)	Problem: After stopping and starting RTS in the middle of a batch while in DTA, the user gets an error message "Cannot complete DTA under this version of RTS".	Fix completed: The new message will read: "Unable to complete Dealer Title. This group of Dealer Transactions will be deleted".
	Subcontractor Updates	Problem: RTS is automatically populating the body style UT-Utility TL at the No Title Record (TTL004) screen even if the body style is blank on the diskette.	Fix completed:

PRIMARY EVENT SELECTION	SECONDARY EVENT SELECTION	ACTIVITY DESCRIPTION	STATUS
		Problem: When processing DTA/Keyboard and selecting "Record Not Applicable" the carrying capacity is carried forward to the new record.	Fix completed:
		Problem: Subcontractor information screen (OPT003) does not allow entry for additional subcontractor name, street address and Non-USA Subcontractor address.	Fix completed: Subcontractor information screen (OPT003) has been updated to match the standard format for RTS address fields.
LOCAL OPTIONS	Lienholder Update	Problem: Lienholder information (OPT002) screen currently does not accept Non-USA Lienholder addresses.	Fix completed:
	Detailed Reports	Problem: After processing and voiding renewal transactions in a multi set, the subtotal for the last transaction set is missing on the Trans Reconciliation report.	Fix completed:
FUNDS  Cash Drawer Operations	Detailed Reports	Problem: When processing transactions over a million dollars the Transaction Reconciliation report displays \$######### for the Payment Report Total which is not consistent with Fees Report Total.	Fix completed:

# XVII. VERSION 5.9.0 ACTIVITY CHANGES FOR REGIONS AND HEADQUARTERS

PRIMARY EVENT SELECTION	SECONDARY EVENT SELECTION	ACTIVITY DESCRIPTION	STATUS
ACCOUNTING	Regional Collections	Problem: When processing an "Annual Permit Plate", there is no year validation on inventory.	Fix completed: The year specified on (ACC002) will now be validated before prompting for annual inventory.
HEADQUARTERS	MainFrame Enhancement	Problem: When a request is made by the county for "Registration And Title System Summary Transaction History Report" for a specific employee, the report has to be generated for the entire county.  Note: Report number is RTS.MNF.632.001.	Fix completed: The report can now be requested for a specific employee id without generating the report that includes the entire county.
