

GENERAL PERMIT FACSIMILE INSTRUCTIONS

Please fill out form completely and legibly.

For assistance please call 1-800-299-1700.

Prior to being issued a permit, applicant must comply with one of the following:

- TxDMV Motor Carrier Registration, or
 - Federal Unified Carrier Registration (UCR), or
 - Have a permit surety bond in the amount of \$10,000 on file with TxDMV (Form MCD-439)
1. Register vehicles under the provisions of Texas Transportation Code, Chapter 502.
Note: If your oversize/overweight vehicle or vehicle combination requires a Temporary Permit (Registration), then you must obtain this prior to submitting this application. Please visit www.TxDmv.gov, select "Temporary Permits" under the "Motorist" heading.
 2. Agree to Attest Statements (located in Load Information section):
 - a. I attest that the load is non-divisible: A load or vehicle that cannot be separated into smaller loads or vehicles without compromising the intended use of the vehicle (making it unable to perform the function for which it was intended), destroying the value of the load or vehicle (making it unusable for its intended purpose), or requiring more than eight hours of work using appropriate equipment to dismantle (permittee has the burden of proof as the number of workhours required to dismantle the load).
 - b. I attest that hauling multiple items does not create an over-dimension: When a permitted commodity creates a single over-dimension, two or more commodities may be hauled as one permit load, provided legal axle weight and gross weight are not exceeded, and provided an over-dimension of width, length or height is not created or made greater by the additional commodities.
 3. Specify Dimensions and Weight: Dimensions/weight should include truck and trailer with the commodity loaded. The overall length should include all overhangs. Dimensions should be submitted in feet and inches. Weights should be submitted in pounds.

For faster processing, order your permit online through the Texas Permitting & Routing Optimization System (TxPROS) at TxPROS.TxDmv.gov.

Helpful Hints:

1. Include the proper highway signage for each highway you wish to travel.
2. Make sure each applicable field is completed. Incomplete fields may result in the delay of your permit being processed.
3. Illegible applications may result in errors in your permit. To ensure information is permitted properly, typing this form is encouraged.
