About the Release

These Release Notes contain information about new features, enhancements, and reported issues resolved in this release of the Registration and Title System Point of Sale (RTS POS).

For more information about the RTS POS, refer to the Online Help and to the original Release Notes on the RTS Refactoring Resources page of the TAC Hub (www.txdmv.gov/tax-assessor-collectors).

RTS POS Overview

The refactored RTS POS is a web-based application designed to process vehicle registrations, titles, and temporary permits for Texas motorists through a series of web pages. The RTS POS system provides functions for cash accounting, funds allocations, and a full audit trail along with inventory control for license plates, windshield/plate stickers and temporary permits.

The RTS POS application displays when you log in to the RTS workstation.

To display reference information about using the RTS POS, click in the upper right corner of the web browser to minimize the application and click the RTS Refactoring Help icon on your desktop.
The RTS Refactoring Resources page (on the TAC Hub) displays FAQ documents composed of questions submitted by the county tax offices, as well as materials presented during RTS POS webinars (including the training guides, slide decks for presentations, and other recorded webinar sessions). The original Release Notes are also available on this page.

Click the **Job Aids** tab to locate important quick references to help you log in and work with the RTS POS.

When logged into the RTS POS, you can get specific application level help by clicking the Help button on the page you are viewing or the entire user assistance web site by selecting **Help > User Guide** on the main page action bar.

**NOTE:** It is important to visit this Resources page frequently for updates and new materials.

## 1 Enhancements in RTS POS 9.6.2

| 24326 | **Previous:** In the 9.5.0 release, only the County Security Administrator could submit training for county users.  
**Change:** TxDMV HQ users who have access to Employee Security can now submit training for county users.  
**NOTE:** The TxDMV user can search for any user name across all counties when the **County Training** checkbox is selected. If the **County Training** checkbox is not selected, the TxDMV user is only able to search for their users. |

1. In RTS, click **Local Options>Security>Employee Security**.
2. On the **Employee Access Rights SEC005** screen, select **Enable User Name for Search** checkbox and enter a **User Name**.
3. Select **County Training** checkbox.

**NOTE:** The system returns the County User data on the screen. Only the Report Training and Review Training buttons are enabled.

4. Click **Report Training**.

**Employee Access Rights SEC005**
5. On the **Training Modules TRN001** screen, select which Report Training for the County User that can be Extended or Entered.
