## About the Release

These Release Notes contain information about new features, enhancements, and reported issues resolved in this release of eLICENSING.

## eLICENSING Overview

eLICENSING is an online self-service hub for all motor vehicle dealers, salvage dealers, and industry licensees operating in Texas. Dealers and licensees can access licensing information, submit license applications and payments, and track the progress of submitted applications. Members of the public as well as tax assessor-collectors may use eLICENSING to file complaints against dealers.

### Getting Help

The documentation for eLICENSING is on the Texas Department of Motor Vehicles web site: <https://www.txdmv.gov>. Open the **About Us** menu, choose **Publications**, open the **Dealers** tab, and select **Dealers**.

<b>LACE-11130</b>	Salvage End Date Indicator on GDN License Record
<b>LACE-11203</b>	Update static text on Plate Application

## Business Reported Issues

### Motor Vehicles Division

**LACE-10803      Addition of New Amendment Reason for GDN License - Change Salvage Designation**

Allows a dealer with a GDN license to update the salvage designation from yes to no or vice versa, so that the current salvage designation status is shown on the dealer's GDN license record.

**LACE-10970      Question & Attachment re: Secure Storage for License Plates**

When completing a new, renewal, or amendment application, GDN and FRN dealers must provide information regarding the secure space used for metal license plate storage that is required to be present at the dealer's licensed physical location.

**LACE-10974      Add Dealer Temporary Plates to the eLICENSING Renewal Application Process**

Provides FRN & GDN Dealers the ability to order the new Dealer Temporary plates through the Renewal license application so that the Dealer Temporary plates will be available for use to current license holders on July 1st of 2025. The new Dealer Temporary plates will replace the Vehicle-Specific and Agent-Specific Dealer Temporary Tags.

**LACE-10988      Add Salvage Designation to GDN Printed License**

GDN dealers who are dually licensed as salvage dealers will now have the salvage designation included on their printed license.

**LACE-10991      Allow Dealer to submit a Plate Request for Standard Plates with APA Expired Status**

FRN or GDN Dealers with an APA Expired status can now purchase Standard or Temporary Dealer plates during the renewal application process.

**LACE-11025    Rebrand eTAGs to ePLATEs for External Applications**

All external "eTAG" and "eTAG Admin" terms and labels were updated to "ePLATES" or "ePLATES Admin" respectively so that the name now reflects the new procedures and processes needed for the new metal plates operations put in place by HB718.

**LACE-11203    Update Static Text on Plate Applications**

Static text was added to the application reason page of the Plate application to provide information regarding not receiving canceled or lost dealer temporary plates and for ordering replacement stickers only for dealer temporary plates a dealer has in their possession.
