About the Release

These Release Notes contain information about new features, enhancements, and reported issues resolved in this release of the Registration and Title System Point of Sale (RTS POS).

Release Notes are located under the **Release Notes & Support** tab on the TAC Hub (www.txdmv.gov/tax-assessor-collectors).

RTS POS Overview

The refactored RTS POS is a web-based application designed to process vehicle registrations, titles, and temporary permits for Texas motorists. RTS POS provides functions for cash accounting, funds allocations, and a full audit trail along with inventory control for license plates, windshield/plate stickers, and temporary permits.

Getting Help

When logged in to the RTS POS, you can display reference information about using the RTS POS and get specific application-level help.

- To get application-level help, click **Help** on the page you are viewing.
- To see the entire user assistance web site, select **Help > User Guide** on the main page menu bar.

Additional Resources

For additional resources for the RTS POS, see the TAC hub (www.txdmv.gov/tax-assessor-collectors). Open the **Resources** tab, select **Publications & Manuals | TAC | RTS Support**.

Select all Deselect all

To the Unpaid Remittance Report, allow searches for Counties / RSCs to extend beyond the 276-issuance number and display issuance numbers greater than 276 in the drop-down menu.

COG-626 Lienholder Change Report

This new Cognos report is designed to display changes to lienholder information when the lienholder makes a change to their information such as their name and address. The report will display the lienholder's old information prior to the change, along with the newly updated information as well as the start and end date to aid in determining when the change became effective.

COG-633 COGNOS - Employee Access Report - Retain Deleted Employee Information in History.

In the Employee Access Report, retain the employees who have been deleted in the POS history table so that Enforcement (ENF) has access to the deleted user's information when ENF performs routine compliance reviews.
