Legislative Enhancements in Release 25.3

The following Enhancements displayed in this section for the 25.3 Release Notes are focused on House Bill (HB) 718, as they relate to the new metal plate implementation.

RRTS-36768 HB 718 POS Timed Permit – Issuing a One-Trip and 30-Day Temporary Registration Plate (Red) 8-character plate to a vehicle

Counties and Regional Service Centers (RSCs) will issue a new Temporary Registration Plate, for One-Trip and 30-Day use, in lieu of the current paper temporary permits. Temporary Registration Plates or stickers that are lost, stolen, damaged or mutilated are not replaceable systematically, and a new transaction (at cost) must be processed.

Note: Vehicles sold for **export** are <u>only eligible</u> to receive a Temporary Registration Plate for One-Trip usage, which is valid for a period of 15 days from the effective date.

<u>Temporary Registration Plate (One-Trip and 30-Day) Issuance (Regular and Motorcycle):</u>

Upon selecting **Customer > Miscellaneous Registration > Timed Permit > Permit Application**, the clerk will enter a VIN on the Timed Permit VIN Key Selection MRG007 screen.

RRTS-37427 HB 718 Collection of the Out-of-State Buyer Plate Fee in the Status Change Event.

RTS accommodates for the collection of the Out-of-State Buyer Plate Fee on the Dealer Sale - OOS TTL020 screen, in addition to any applicable inspection fee, if a dealer opts not to submit the payment of the fees through ePLATE upon completing the initial out-of-state sale. Issuance of the Out-of-State Buyer Plate will have a \$10 fee paid by the customer at the time of sale.

Upon selecting **Customer > Title/Registration > Status Change**, the clerk will enter a **Plate No/VIN** on the Inquiry Key Selection KEY001 screen.

To collect the applicable fees, select **Dealer Sale – OOS** on the Status Change Record TTL006 screen. The Dealer Sale - OOS TTL020 screen will then display. The clerk then completes the remaining dealer information, as required, and ensures that the applicable **Collect** option (OOS Buyer Metal Plate (Buyer Tag) and/or Inspection Fee) is checked and selects enter.

When processing a dealer title transaction with an existing RTS record, the county will be prompted to select Change Registration on the TTL003 screen, for RTS to update the record with the ePLATE assignment processed by the dealer.

RRTS 37619 Full-Service Deputy (FSD) Session: Set FSD Title Convenience Fees

FSDs will have the ability to review and approve webDEALER title transactions for dealers on a county's behalf. As a result, FSDs will be able to set their Title and Registration Convenience Fees that will be assessed on all webDEALER title transactions the FSD processes.

A new permission, **FSD webDEALER Fee Update**, has been created to correspond to the new event in RTS where a FSD will set their fees. Counties will need to assign this permission to any applicable FSD RTS users under Local Options within the Employee Security event.

When the FSD user selects this menu item, the OPT008 pop-up will display allowing the FSD to set a Title Convenience Fee of up to \$20 and check the box to assess a flat \$9 Registration Convenience Fee. The FSD can update the fees as needed.

If the dealer is a dealer deputy that can issue their own registration sticker, the \$9 Registration Convenience Fee will not be assessed in webDEALER.

Note: webDEALER will automatically assess the fees set by the FSD when a dealer opts to submit the transaction to the FSD for processing. The fee cannot be set per transaction or per dealer and will apply across all transactions for that FSD location.
