13 RENEWING A MANUFACTURER REPRESENTATIVE LICENSE
1 Manufacturer Licenses
A person or business entity must have a Manufacturer license to create or assemble new motor vehicles to be sold in Texas.

1.1 License Term
Manufacturer licenses are generally issued for terms of 2 years and can be renewed for subsequent 2-year terms.

1.2 Manufacturer License Fees
The fee for a manufacturer license is $1,800.

The franchised dealer fee is $40 for each sales/service location that carries the line-makes of a manufacturer.

The representative fee is $200 for each licensed representative.

You can use a credit card or electronic check (eCheck) to pay your fees. In addition to the application fees, different convenience processing fees are charged when paying by credit or debit card or when paying by electronic check (eCheck) transactions. These fees are based on the amount of purchase and are displayed on the Payment page.

1.3 Manufacturer License Numbers
The Manufacturer license numbers are strings of numbers.

1.4 Manufacturer Licensee Information
Manufacturers may not sell new motor vehicles directly to Texas consumers, including municipalities. Only franchised dealers that are licensed for the line-make and type code of the vehicle are allowed to sell new motor vehicles to Texas consumers. If a new motor vehicle is sold through a bid process, the franchised dealer for the specific line-make and type code must be listed on the bid as the seller.

Ownership interest in a dealership generally prohibited. Manufacturers cannot operate, control, or own an interest in a dealership, or act in the capacity of a dealer, directly or indirectly except in dealer development. Motor vehicle manufacturers may temporarily
own an interest in a dealership for dealer development purposes if they can demonstrate:

- That the dealer development candidate is part of a group that has historically been underrepresented in the manufacturer’s or distributor’s dealer body or who is otherwise qualified but lacks the resources to purchase a dealership outright;
- That the manufacturer or distributor is in a bona fide relationship with the dealer development candidate;
- That the dealer development candidate has made a significant investment in the dealership, subject to loss;
- That the dealer development candidate has an ownership interest in the dealership;
- That the dealer development candidate operates the dealership under a plan to acquire full ownership of the dealership within a reasonable time and under reasonable terms and conditions.

A manufacturer may own an interest in a franchised dealer, or otherwise control a dealership, for a period not to exceed 12 months from the date the manufacturer acquires the dealership if the person from whom the manufacturer acquired the dealership was a franchised dealer; and the dealership is for sale by the manufacturer at a reasonable price and on reasonable terms and conditions.

Throughout the application process, you must answer questions regarding these requirements and may be required or requested to provide an explanation or proof of the answer given (like uploading a copy of a photo driver’s license of each owner).

1.5 Gathering Appropriate Information for the Manufacturer License Application

You must have the following information to complete your Manufacturer license application:

- Certificate of Incorporation, Registration, or Formation filed with the Texas Secretary of State or the State in which you incorporated if not physically located in Texas
- The employer identification number (EIN) of the business or the owner social security number
- The numbers of all previous licenses the individuals or business entity may possess or have possessed in the past
• Facts of the criminal history of anyone associated with the manufacturing plant (officer, partner, trustee, or other representative capacity) that were arrested, been convicted, received deferred adjudication, or been court martialed, or has any of these actions currently pending, to fill out certain information as shown below for each person and each offense.

• Documentation setting out the preparation and delivery obligations of applicant’s franchised dealers in Texas before delivery of a new motor vehicle to a retail purchaser (if none, state so).
  – Documentation setting out the schedule of compensation to be paid to applicant’s franchised dealers in Texas for work and service performed in connection with the franchised dealer’s preparation and delivery obligations. (If none, state so).
  – Brochures or photographs depicting your product(s), with a description of the product specifications or a web address with instructions as to where to find this information (description and specifications) for each line-make and vehicle type code sold.

• Files containing scanned copies of official documents containing the:
  – Assumed Name Certificate issued by the County Clerk (individual owners) or Secretary of State (all others)
  – Driver’s licenses (or passport, official identification cards, and so on) of owners or officers of the corporation (if applicable)
  – Brochures and Product Specifications of products and services offered
  – Court papers that back up the adjudication, dismissal, or decision made in each criminal matter (if applicable)
2 Applying for a Manufacturer License

The Manufacturer license application has several web pages that require applicants to type in information and make selections. Depending on the information entered and the selections made, the applicant will be required to upload files containing the related documents when prompted or on Attachments page.

**IMPORTANT:** All of the answers and requirements to obtain the dealer license must be kept in place for the entire term of the license. For example, you cannot answer in the affirmative that the manufacturer has certain resources available and then let the resources go once the application is approved.

If you must exit the application process before completing the application, you can save all of the information to date and then access the saved application and pick up where you left off. Refer to the section about Accessing Saved Manufacturer Applications on page 48.

11 Manufacturer’s Representative Licenses

A manufacturer must apply for a Representative License for the entity, usually an individual however it can be a company, that will act as its agent to promote, distribute, or sell new motor vehicles or to contact dealers in Texas on their behalf. Typically, the eLICENSING Administrator will apply for the Representative License after submitting their license application.

11.1 License Term

Representative Licenses are issued to match the term of the manufacturer being represented. It expires and is renewed with their license.

11.2 License Fees

The fee for a Representative License is $200.00 for a full 2 year term. However, the fee will be pro-rated to reflect the time remaining on the license term if the representative is engaged during the manufacturer’s, distributor’s, or converter’s license term.

You can use a credit card or electronic check (eCheck) to pay your fees. In addition to the application fees, different convenience processing fees are charged when paying by credit or debit card or when paying by electronic check (eCheck) transactions. These fees are based on the amount of purchase and are displayed on the Payment page.

11.3 Representative License Numbers

The Representative license numbers are numeric strings without any letter designations.

11.4 Representative License Information

A person may act as a representative for more than one manufacturer, distributor, or converter, but a separate Representative License must be obtained for each company represented.

The Representative License does not allow the entity to sell new or used motor vehicles to Texas consumers.
A manufacturer must have a separate entity as their Representative; that is, the manufacturer cannot be the Representative.

Throughout the application process, you must answer questions regarding these requirements and may be required or requested to provide an explanation or proof of the answer given (like uploading a copy of a photo driver’s license of each owner).

11.5 Gathering Appropriate Information for the License Application

You must have the following information to complete your Representative license application:

- The filing number with the Texas Secretary of State, if physically located in Texas, when the business entity registered (SOS number), when the Representative is a company.
- The employer identification number (EIN) of the business, when the Representative is a company, or the owner social security number
- Facts of the criminal history of anyone associated with the Representative (officer, partner, trustee, or other representative capacity) that has ever been arrested, been convicted, received deferred adjudication, or been court martialed, or has any of these actions currently pending, to fill out certain information as shown below for each person and each offense.
Files containing scanned copies of official documents containing the:

- Driver's licenses (or passport, official identification cards, and so on) of owners
- Court papers that back up the adjudication, dismissal, or decision made in each criminal matter (if applicable).
12 Applying for a Manufacturer’s Representative License

The Representative license application has several web pages that require applicants to type in information and make selections. Depending on the information entered and the selections made, the applicant will be required to upload files containing the related documents when prompted or on Attachments page.
