#### **General Revenue Funds**

<u>General Revenue Fund (0001)</u> – This fund is used to account for all financial resources of the State except those required to be accounted for in another fund.

<u>License Plate Trust Fund (0802)</u> – This fund is used to receive and account for fees charged from the sale of specialty license plates collected under Subchapter G, Transportation Code. Funds are to be used in accordance with their specific statutory purpose.

#### **Suspense Funds**

Suspense Funds, known as Agency Funds in prior years, are used to account for assets held in a custodial capacity for the benefit of other agencies or individuals. These funds had previously been classified as fiduciary activities. However, with the State of Texas implementing GASB 84 in Fiscal Year 2020, these funds are now classified as governmental and are consolidated with General Revenue Funds.

<u>Proportional Registration Distributive Trust Fund (0021)</u> – This fund is used primarily to collect and distribute registration fees from trucking companies that operate in more than one state. The fees are distributed to the individual states based on mileage driven.

<u>Intermodal Container & Milk Transport TxDMV Fund (1623)</u> – This fund is used as a holding account for the county and/or municipality portions of three new oversize/overweight permit fees created in FY 2018. The fees are held until they can be disbursed to the appropriate county or municipality.

<u>Child Support Deductions (0807)</u> – This fund is used as a holding account where child support payroll deductions are held until disbursed.

<u>City, County, MTA, & SPD Fund (0882)</u> - This fund is used as a holding account where taxes for the State are collected until disbursed.

<u>Suspense Fund (0900)</u> - This fund is used when depositing funds where final disposition has not been determined at the time of the receipt of funds.

<u>Direct Deposit Correction Account (0980)</u> – This fund is used to temporarily hold and account for direct deposits that are unable to be processed until the correct disposition of the item is determined.

#### **Special Revenue Funds**

<u>State Highway Fund (0006)</u> – This fund is restricted to expenditures for the building, maintaining, and policing of the State highways. It derives its financing primarily from legally dedicated revenues such as motor fuels tax and vehicle registration fees, and from federal reimbursements for selected construction projects.

<u>Texas Department of Motor Vehicles Fund (0010)</u> – This fund is used by the department for operations, administration, enforcement, accounting costs and related liabilities for the fund. Revenue includes fees from motor vehicle registration, title certificates, special vehicle permits, specialty license plates and other transportation-related permits. This fund was initially enacted by H.B. 2202, 83<sup>rd</sup> Legislature; however, it was not exempted from funds consolidation. The 84<sup>th</sup> Legislature recreated the fund through S.B. 1512, and it was exempted in funds consolidation.

#### **Capital Assets Adjustments Fund Type**

Capital Assets Adjustment fund type is used to convert governmental fund types' capital assets from modified accrual to full accrual.

#### **Long Term Liabilities Adjustments Fund Type**

The Long-Term Liabilities Adjustments fund type is used to convert all other governmental fund types' debt from modified accrual to full accrual. The composition of this fund type is discussed in Note 5.

#### **Fiduciary Fund Types**

Fiduciary funds account for assets held by the State in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. When assets are held under the terms of a formal trust agreement, either a pension trust fund, or a private purpose trust fund is used. TxDMV has no funds that meet the new criteria for fiduciary activity as established in GASB 84 for Fiscal Year 2020.

#### **Basis of Accounting**

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. The accounting and financial reporting treatment applied to a fund is

determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period in which they become measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified accrual basis. For federal contracts and grants, revenues have been accrued to the extent earned by eligible expenditures within each fiscal year. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual method of accounting. This includes capital assets, accumulated depreciation, unpaid Employee Compensable Leave, the unmatured debt service (principal and interest) on general long-term liabilities, long-term capital leases, and long-term claims and judgments. The activity will be recognized in these new fund types.

#### **Budgets and Budgetary Accounting**

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act). The Board adopts an annual operating budget and policies consistent with these appropriations. Encumbrance accounting is utilized for budgetary control purposes. An encumbrance is defined as an outstanding purchase order or other commitment for goods or services. It reserves a part of the applicable appropriation for future expenditure. Encumbrance balances are reported in Note 15.

Unencumbered and unexpended funds are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

#### **Assets, Liabilities and Fund Balances**

#### Assets

#### Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents. Cash in bank represents the TxDMV Travel Advance Fund.

#### Receivables

The receivables represent revenue from fees and federal funds that has been earned but not received. This account is presented net of Allowance for Bad Debts.

#### <u>Inventories and Prepaid Items</u>

This represents supplies and postage on hand. Supplies for governmental funds are accounted for using the consumption method of accounting. The cost of these items is recognized as an expenditure when items are consumed.

#### **Capital Assets**

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year are capitalized. These assets are capitalized at cost or, if purchased, at appraised fair value as of the date of acquisition. Depreciation is reported on all "exhaustible" assets. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

#### Liabilities

#### **Accounts Payable**

Accounts payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

#### Payroll Payable

Payroll payable represents the liability for the August payroll payable on September 1st.

#### Employees' Compensable Leave

Employees' compensable leave represents the liability that becomes due upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net assets. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

#### **Fund Balance/Net Assets**

The difference between fund assets and liabilities is "Net Assets" on the government-wide, proprietary and fiduciary fund statements, and the "Fund Balance" is the difference between fund assets and liabilities on the governmental fund statements.

#### **Fund Balance Components**

<u>Nonspendable fund balance</u> includes amounts not available to be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.

<u>Restricted fund balance</u> includes those resources that have constraints placed on their use through external parties or by law through constitutional provisions.

<u>Committed fund balance</u> can only be used for specific purposes pursuant to constraints imposed by formal action of the State's highest level of decision-making authority (the Legislature). Those committed amounts cannot be used for any other purposes unless the Legislature removes or changes the specified use by taking the same action it employed to previously commit those amounts.

<u>Assigned fund balance</u> amounts are constrained by the agency's intent to use them for specific purposes that are neither restricted nor committed.

<u>Unassigned fund balance</u> is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

#### **Invested in Capital Assets, Net of Related Debt**

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction or improvement of those assets.

#### **Unrestricted Net Assets**

Unrestricted net assets consist of net assets that have no constraints placed on net asset use by external sources or by law through constitutional provisions or enabling legislation. Unrestricted net assets often have constraints on resources, which are imposed by management but can be removed or modified.

#### **Interfund Activities and Balances**

The agency has the following types of transactions among funds:

#### <u>Transfers</u>

Legally required transfers that are reported when incurred as Transfers In by the recipient fund and as Transfers Out by the disbursing fund.

#### Reimbursements

Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.

Accrual of Operating Transfers, Reimbursements, and Residual Equity Transfers are shown as Due To and Due From instead of accounts receivable or accounts payable.

#### NOTE 14: ADJUSTMENTS TO FUND BALANCES AND NET POSITION

Not Applicable

#### **NOTE 15: CONTINGENCIES AND COMMITMENTS**

#### **Federal Assistance**

The TxDMV receives federal financial assistance for specific purposes that are subject to review or audit by the federal grantor agencies. Entitlement to this assistance is generally conditional upon compliance with the terms and conditions of the grant agreements and applicable federal regulations. Such audits could lead to requests for reimbursements to grantor agencies for expenditures disallowed under the terms of the grant. Management believes such disallowance, if any, will be immaterial.

#### **Encumbrances**

As of August 31, 2020, the TxDMV had encumbered the following amounts in governmental funds for signed contracts and purchase orders:

	General Revenue Fund	Special Revenue Fund	Texas Department of Motor

#### **NOTE 18: MANAGEMENT DISCUSSION AND ANALYSIS**

The Texas Department of Motor Vehicles (TxDMV) is funded through the TxDMV Fund, with the exception of the Motor Vehicle Crime Prevention Authority (MVCPA), which is funded through the General Revenue (GR) Fund.

During FY 2020, revenue for all funds totaled \$1.74 billion. This represents a decrease of \$168.43 million or 8.82% compared to FY 2019 revenues of \$1.91 billion. Of the FY 2020 amount, \$1.57 billion was deposited into the State Highway Fund, \$155.96 million was deposited into the TxDMV Fund and \$12.96 million was deposited for use by MVCPA. The decrease in revenue is primarily attributable to economic changes in the second half of the fiscal year due to the COVID-19 pandemic. Major factors contributing to the decrease in FY 2020 are due to the effect of the Governor suspending and waiving certain fees/permits beginning March 16 and continuing through the end of the fiscal year.

Title revenues decreased due to a drop in overall vehicle sales as compared to FY 2019, as well as a loss in delinquent title transfer penalty revenue from March 16 to August 31 due to those penalty fees being temporarily waived. Registration and associated Processing & Handling fee revenue decreased in FY 2020 compared to FY 2019, also related to the waivers.

FY 2020 Capital Budget expenditures totaled \$18.1 million, primarily consisting of expenditures for the Data Center Consolidation services (\$10.4 million); TxDMV Automation project (\$3.1 million); County Technology Replacement & Upgrades (\$2.1 million); and TxDMV Headquarters Maintenance (\$1.3 million). Other capital expenditures (\$1.2 million) were for Agency Growth & Enhancement, Replacement Vehicles, Personal Computer (PC) Replacement, Cybersecurity, Regional Service Center Maintenance and TxDMV Headquarters Badge and Security.

FY 2020 expenditures totaled \$152.30 million, an increase of \$7.19 million, or 4.95% compared to FY 2019 expenditures of \$145.11 million. The primary factors contributing to this increase include 1) an increase in preprinted license plates and 2) additional money for a Texas Facilities Commission study on repairs for the Camp Hubbard facility in Other Operating Expenditures, totaling \$3.80 million. An additional \$2.10 million increase in Professional Fees and Services is attributable to Information Technology and Consultant services, primarily related to the Registration and Title System Refactoring project. Other significant items included a \$1.20 million increase in Salaries and Wages due to higher full-time employee headcount in FY 2020.

Through the end of August 2020, TxDMV expended a total of \$1.75 million in response to COVID-19. The expenditures are primarily for staff time, the acquisition of personal protective equipment (PPE) items for employees and customers, cleaning supplies and facility preparation activities such as cleaning and defogging services and the installation of plexiglass.
