About the Release

These Release Notes contain information about new features, enhancements, and reported issues resolved in this release of the Registration and Title System Point of Sale (RTS POS).

For more information about the RTS POS, refer to the Online Help and to the Release Notes located under the Release Notes & Support tab on the TAC Hub (www.txdmv.gov/tax-assessor-collectors).

RTS POS Overview

The refactored RTS POS is a web-based application designed to process vehicle registrations, titles, and temporary permits for Texas motorists through a series of web pages. RTS POS provides functions for cash accounting, funds allocations, and a full audit trail along with inventory control for license plates, windshield/plate stickers, and temporary permits.

The RTS POS application displays when you log in to the RTS workstation.

To display reference information about using the RTS POS, click ☰️ in the upper right corner of the web browser to minimize the application and click the 🧑‍💻 RTS Refactoring Help icon on your desktop.

The RTS Refactoring Resources page (on the TAC Hub) displays FAQ documents composed of questions submitted by the county tax offices, as well as materials presented during RTS POS webinars (including the training guides, slide decks for presentations, and other recorded webinar sessions). The original Release Notes are also available on this page.

Click the Job Aids tab to locate important quick references to help you log in and work with the RTS POS.
When logged in to the RTS POS, you can get specific application level help by clicking Help on the page you are viewing or the entire user assistance web site by selecting Help > User Guide on the main page action bar.

**NOTE:** It is important to visit this Resources page frequently for updates and new materials.

## 1 Enhancements in RTS SLP 9.9.0

### Previous: TxDMV assigns commission percentage amounts to be distributed to the TxDMV Fund, the General Revenue Fund, and the Specialty License Plate Fund on vendor renewals. All existing reports and all specialty license plate legacy reports regarding reconciliation of funds and reconciliation of funds for non-vendor specialty license plates can be viewed.

### Change: Special Plates Unit can view the report on all sales and refunds of non-vendor specialty license plates that are hosted on the vendor’s website. Also, it will show the fee collection and distribution report regarding the revenue percentage fees.
**Previous:** My Plates will not receive any revenue from the sale of personalized or non-personalized specialty license plates. A report will need to generate the new fee splits for the My Plate contract which became effective November 19, 2019.

**Change:** Special Plates Unit can view the percentage of the revenue fee splits by Year Two and then again prior to Year Five.
